Parents with Mental and/or Substance Use Disorders and their Children 2020-05-13 this study was undertaken as part of a larger learning exercise to assess the outcomes and impacts of the international food policy research institute s country programs it reports on in depth probing of selected successful research contributions to policy outcomes in order to determine if there are any common approaches and actions taken by country program leaders that helped to foster the successes the selection of case studies was not comprehensive there were many more identified by country program leaders nor random because we desired to have samples from all the countries with country programs a semi structured interview approach was followed by the authors and guided by a list of questions found in appendix b the results showed that important factors making successful contributions to policy were building high credibility with local policy makers and donors having direct access to senior policy makers partnering with the right people conducting research on issues over the longer term and not just responding to crises organizing conferences and meetings around research evidence and strengthening national capacity for policy research

Values, Political Action, and Change in the Middle East and the Arab Spring 1982 can capitalism have moral foundations though this question may seem strange in today s world of vast economic disparities and widespread poverty discussions originating with the birth of capitalism

add a critical perspective to the current debate on the efficacy and morality of capitalist economies authors daniel halliday and john thrasher use this question to introduce classical political philosophy as a framework by which to evaluate the ethics of capitalism today they revisit and reconstruct historical eighteenth and nineteenth century defenses of capitalism as written by key proponents such as adam smith and john stuart mill they ask what these early advocates of market order would say about contemporary economies and argue for the importance of connecting these foundational defenses to discussions of economic systems and the roles they play in economic justice and injustice today the textbook covers longstanding problems that are as old as the discussion of capitalism itself such as wage inequality global trade and the connection between paid labor and human flourishing it also addresses new challenges such as climate change the welfare state and competitive consumption and provides topical global case studies additionally it includes study questions at the end of each chapter and an author created companion website to help guide classroom discussion

A Study Guide for Franz Kafka's "A Country Doctor" 2012-02-13 human rights power and civic action examines the interrelationship between struggles for human rights and the dynamics of power focusing on situations of poverty and oppression in developing countries it is argued that the concept of power is a relatively neglected one in the study of rights based approaches to development especially the ways in which structures and relations of power can limit human rights advocacy therefore this book focuses on how local and national struggles for rights have been constrained by power relations and structural inequalities as well as the extent to which civic action has been able to challenge alter or transform such power structures and simultaneously to enhance protection of people s basic human rights contributors examine and compare struggles to advance human rights by non governmental actors in cambodia china ghana kenya south africa and zimbabwe the country case studies analyse structures of power

responsible for the negation and denial of human rights as well as how rights promoting organisations challenge such structures utilising a comparative approach the book provides empirically grounded studies leading to new theoretical understanding of the interrelationships between human rights struggles power and poverty reduction human rights power and civic action will be of interest to students and scholars of human rights politics power development and governance
