Approaches to Administrative Training in Education 1987-01-01

the book addresses a long felt need to describe and investigate the education and training of school administrators the topic is especially timely with the current emphasis on educational reform and reports from the effective schools research which puts emphasis on the quality of leadership especially principals patricia a schmuck lewis and clark college in this important new collection murphy and hallinger bring together descriptions of a wide range of the new models in use in educational administrative training most of these eleven models have developed in response to contemporary criticism of the educational administrative theory movement and each in its own way strives to bridge the chasm between educational theory and practice the approaches represented here stress the importance of the administrators engagement in the daily life of the school and encourage administrators to learn from one another while some models have come from leadership academies others have been developed and tested in state departments of education professional associations and educational institutions the book represents an important resource for those working with pre and inservice administrators as they learn ways in which their involvement can improve the nation s schools

Administrative Technology & the School Executive 1969

while there is a widespread belief that some people are born to lead the existence of an ideal manager is almost entirely a myth basic skills the ones that most employees can learn are often more important than personality traits in skills of an effective administrator robert l katz identifies the three fundamental abilities companies should seek to develop in their managers find out for yourself how these vital skills can be put to work today since 1922 harvard business review has been a leading source of breakthrough ideas in management practice the harvard business review classics series now offers you the opportunity to make these seminal pieces a part of your permanent management library each highly readable volume contains a groundbreaking idea that continues to shape best practices and inspire countless managers around the world

Skills of an Effective Administrator 2009-05-07

praise for the fifth edition of the responsible administrator cooper s fifth edition is the definitive text for students and practitioners who want to have a successful administrative career moral reasoning as cooper so adeptly points out is essential in today s rapidly changing and complex global environment donald c menzel president american society for public administration and professor emeritus public administration northern illinois university the responsible administrator is at once the most sophisticated and the most practical book available on public sector ethics it is conceptually clear and jargon free which is extraordinary among books on administrative ethics h george frederickson stone distinguished professor of public administration university of kansas remarkably effective in linking the science of what should be done with a prescriptive for how to actually do it the fifth edition of cooper s book keeps pace with the dynamic changes in the field both for those who study it and those who practice it the information presented in these pages can be found nowhere else and it is information we cannot ethically afford to ignore carole l jurkiewicz john w dupuy endowed professor and woman s hospital distinguished professor of healthcare management louisiana state university e j ourso college of business administration public administration institute

Personnel Administration in Education 1982

dealing with issues and concerns of administrative theory this anthology analyses the various approaches and models in the context of their relevance and impact

The Responsible Administrator 2012-01-31

this is an important work especially in these times when administrative ethics are getting more attention it is readable and timely the journal of academic librarianship since its original publication the responsible administrator has become the standard resource for public administrators seeking to systematically confront and address ethical issues and incorporate them into their decision making and management choices in administrative ethics courses according to the working group on ethics education of the american society for public administration the single most commonly used book is terry cooper s

the responsible administrator in this thoroughly revised and updated fourth edition cooper expands on and uncovers many current issues relevant to administrative ethics he presents a design approach to administrative ethics emphasizing the connection between decision making and actual practice within an organization cooper offers new insight on postmodernism explaining how the problems organizations now face have been intensified by postmodern conditions and describes the relationship between ethics and the emerging principal agent theory the new edition also features a large number of up to date case studies and examples the theoretical framework presented in this powerful resource is clearly grounded in practice featured techniques help managers consider all the factors involved in a decision ensuring that they balance professional personal and organizational values the case studies and examples in this edition illustrate the techniques that work and those that don't the responsible administrator helps both experienced and novice public managers become effective decision makers providing them with a solid understanding of the role and importance of ethics in public service and the framework to incorporate ethical and values based decision making in day to day management

Administrative Theories 2007

Social Administration: An introduction to human services management 1985

the main purpose of this book is to cater to the needs of the undergraduate students of public administration and political science it is intended to serve as a basic text book for these two categories of students the book has been broadly divided into four parts part i introduces the nature and expanding horizons of public administration as a discipline it also highlights the growing importance of public administration in the modern state with special reference to the developing nations and points out its interdisciplinary nature part ii discusses the contributions and theories of some important early administrative theorists part iii provides an understanding of the behavioural and social psychological approaches to the study of public administration it examines the significance of

the prismatic sala model of f w riggs in the study of comparative public administration the views of edward weidner on development administration and the concept of new public administration it provides a critique of various administrative theories discussed under parts ii and iii part iv explains the various concepts in public administration and their importance and limitations in organising administrative structures keeping in view the level of an average student an attempt is made in the book to present the various topics covered in simple the special features of this book are each part is preceded by learning objectives and followed by various types of questions that are usually set in the question papers of university examinations a comprehensive glossary defining the various terms used in the study of public administration and brief life sketches of import administrative thinkers

Administration and Management of Physical Education and Athletic Programs 2003

public administration is commonly assumed to be a young discipline rooted in law and political science with little history of its own likewise teaching and scholarship in this field is often career oriented and geared either toward the search for immediately usable knowledge or guidelines and prescriptions for the future although most administrative scientists would acknowledge that their field has a history their time horizon is limited to the recent past raadschelders demonstrates that public administration has in fact a long standing tradition both in practice and in writing administration has been an issue ever since human beings recognized the need to organize themselves in order to organize the environment in which they lived this history in turn underlines the need for administrators to be aware of the importance and contemporary impact of past decisions and old traditions in seeking to go beyond the usual problem solving and future oriented studies of public administration this volume adds greatly to the cognitive richness of this field of research indeed the search for theoretical generalizations will profit from an approach that unravels long term trends in the development of administration and government raadschelders approaches public administration history from a dual perspective as trained historian and professor of public administration the volume is appropriately called a "handbook in view of its methodical listing of the literature on administrative history together with summaries of numerous authors principal theories the second chapter is an essay on sources in the field including an extended bibliography these parts of the book alone make it useful to scholars in the field

raadschelders is helpful in other ways as well the third and fourth chapters offer a highly sophisticated discussion of methodological problems encountered in writing administrative history including the issue of perceiving Å stages other chapters discuss leading substantive issues such as the development of bureaucracy and citizenship the author combines his own history telling with more bibliographic commentary raadschelders presents his own overarching theory on the development of government built around the thesis that centuries of state making dedicated protecting territory were eventually balanced by a period of nation building that served the people this attempt at grand synthesis is admirable but less valuable than his remarkable success in reviewing the field s enormous range of complexity and variety of viewpoints this is the most important work appear on the subject since e n gladden s two volume history of public administration 1972 c t goodsell choice jos c n raadschelders is associate professor of public administration at the university of leiden he is the author and co author of several books in dutch on various aspects of public administration

Public Administration: Concepts And Theories 2005

since the publication of the previous edition the best selling handbook of public administration enters its third edition with substantially revised updated and expanded coverage of public administration history theory and practice edited by preeminent authorities in the field this work is unparalleled in its thorough coverage and comprehensive references this handbook examines the major areas in public administration including public budgeting and financial management human resourcemanagement decision making public law and regulation and political economy providing a strong platform for further research and advancement in the field this book is a necessity for anyone involved in public administration policy and management this edition includes entirely new chapters on information technology and conduct of inquiry in each area of public administration there are two bibliographic treatises written from different perspectives the first examines the developments in the field the second analyzes theories concepts or ideas in the field s literature

Handbook of Administrative History 1998

Administrative Theory 1959

research in public administration and public management has distinctive features that influence the choices and application of research methods periods of change and upheaval in the public sector provide ample opportunities and cases for research but the standard methodologies for researching in the social sciences can be difficult to follow in the complex world of the public sector in a dynamic political environment the focus lies on solving social problems whilst also using methodological principles needed for doing scientifically sound research research methods in public administration and public management represents a comprehensive guide to doing and using research in public management and administration it is impressively succinct but covering a wide variety of research strategies including among others action research hypotheses sampling case selection questionnaires interviewing desk research prescription and research ethics this textbook does not bog the nascent researcher down in the theory but does provide numerous international examples and practical exercises to illuminate the research journey sandra van thiel guides us through the theory operationalization and research design process before explaining the tools required to carry out impactful research this concise textbook will be core reading for those studying research methods and or carrying out research on public management and administration

The Social Construction of Public Administration 2007-06-01

public administration seeks to develop a comprehensive understanding of the internal structure and functioning of government in all its complexity and its interaction with society and its citizens public administration the interdisciplinary study of government provides an account of the discipline considering its history growth boundaries and tunderlying assumptions it tracks the emergence of the field against a background of the expanding conception of the state and the growth of public services and situates it within the three branches of knowledge natural sciences social sciences and humanities it maps out the sources of knowledge of public administration and how this is fragmented within the discipline s specializations the social sciences and government and society at large it examines how leading authors map the discipline the application of different theories the associated schools of thought and intellectual debates and the role of knowledge integration scholars in public administration have initiated much debate as to whether it should be treated as a science a craft or profession or an

art this book argues that to develop a comprehensive understanding of government and its complexity requires a truly interdisciplinary approach

Public Administration 1974

despite the growth in literature on political corruption contributions from field research are still exiguous this book provides a timely and much needed addition to current research bridging the gap and providing an innovative approach to the study of corruption and integrity in public administration

State Management 2009-05-15

this anthology defining public administration is designed to assist beginning and intermediate level students of public policy and to stir the imaginations of readers concerned with public policy and administration the forty five articles included in the text are all reprinted from the international encyclopedia of public policy and administration and these accessible interesting articles have been assembled to offer a sample of the riches to be found within the larger work the articles provide definitions of the vocabulary of public policy and administration as it is used throughout the world from the smallest towns to the largest national bureaucracies defining public administration is organized into twelve parts each part focuses on a domain pertinent to the study of public administration including overviews policy making intergovernmental relations bureaucracy organization behavior public management strategic management performance management human resource management financial management auditing and accountability and ethics

The Administrative Process 1980

the discipline of public administration draws predominantly from political and organizational theory but also from other social and behavioral sciences philosophy and even theology this diversity results in conflicting prescriptions for the proper administrative role so how are those new to public administration to know which ideas are legitimate rather than accepting conventional arguments for administrative legitimacy through delegated constitutional authority or expertise logics of legitimacy three traditions of public administration praxis does not assume that any one approach to

professionalism is accepted by all scholars practitioners citizens or elected representatives instead it offers a framework for public administration theory and practice that fully includes the citizen as a political actor alongside elected representatives and administrators this framework considers both direct and representative forms of democracy examines concepts from both political and organizational theory addressing many of the key questions in public administration examines past and present approaches to administration presents a conceptual lens for understanding public administration theory and explaining different administrative roles and practices the framework for public administration theory and practice is presented in three traditions of main prescriptions for practice constitutional the bureaucrat discretionary the entrepreneur and collaborative the steward this book is appropriate for use in graduate level courses that explore the philosophical historical and intellectual foundations of public administration upon qualified course adoption instructors will gain access to a course outline and corresponding lecture slides

Research Methods in Public Administration and Public Management

2014-03-14

a comprehensive overview and resource for public administration students and practitioners this book is a combination of an introduction to basic legal principles analysis of excerpts from instructive cases and practical advice it is an original approach to learning about law for those who work for the public good the culmination of more than twenty five years of research study counseling law reform work and reflection on what the law is and should be and how this can be explained to any reasonably thoughtful person the book combines substantive coverage of law subjects likely to be encountered in public administration analysis of illustrative cases and practical advice it distills and simplifies complex topics and combines legal theory with practical realities the book describes the general nature of the laws cases and legal principles that public administrators are most likely to encounter it begins by considering the sources of rules that govern our behavior the evolution of formal law and formal sources of law in the united states legal system the next several chapters discuss constitutional law principles providing an overview of important issues and analyzing important illustrative cases the next several chapters follow a similar approach to the main law subjects likely to be encountered in public administration the remaining chapters cover practical matters including public ethics how to deal with

Public Administration 2011-10-27

this book focuses on management in school administration it explains that school administrators play a vital role in the success of a school therefore it is of the utmost importance that these leaders and future school leaders understand how to be integrative thinkers it has been proven that integrative thinkers are more effective leaders and effective leaders create successful work environments further it elaborates on school based management which involves the formal change in the structures of school governance that leads to a more democratic administrative approach in which planning and decision making are devolved to the individual school and role of principal where the conceptual notion at work here is that of creating a bridge between the performance field and a practice field it also emphasizes on superintendent preparation and training school leadership preparation etc

Corruption in Public Administration 2016-08-26

educational leadership management and administration has a rich history of epistemological and ontological dialogue and debate however in recent times at least since the publication of colin evers and gabriele lakomski s trilogy knowing exploring and doing educational administration there has been a distinct dearth educational leadership relationally explicitly returns matters of epistemology and ontology to the centre of the discussion through a sustained and rigorous engagement with contemporary thought and analysis scott eacott articulates and defends a relational approach to scholarship in educational leadership management and administration eacott belongs to a group of scholars in educational administration who could be called meta sociologist this group blends sociology historical revisionism managerial theories and general philosophy to emphasise the relevance of sociological analysis in the field of educational administration proposing a relational turn eacott outlines a methodological agenda for constructing an alternative approach to educational leadership management and administration scholarship that might be persuasive beyond the critical frontier the relational research programme is arguably the most ambitious agenda in educational leadership management and administration coming out of australia since colin evers and gabriele lakomski s natural coherentism and richard bates critical theory of educational administration as a research agenda it engages with the centrality of

administration in constructions of the social world the legitimation of popular labels such as leadership the inexhaustible and inseparable grounding of administrative labour in time and space and overcomes contemporary tensions of individualism collectivism and structure agency to provide a productive rather than merely critical space to theorise educational leadership management and administration

Defining Public Administration 2018-03-05

what is administrative reform how is it differentiated from other kinds of social reform who are administrative reformers and how do they approach their task and who benefits and who suffers from it does a theory of administrative reform exist a survey of published research on administrative reform reveals that satisfactory answers to these questions are handicapped by methodological and theoretical shortcomings there are no common definitions no agreement over content no selected boundaries no clear links with the wide phenomenon of social reform no firm hypothesis tested by empirical findings and no continuous dialogue between practitioners and theorists this book is the first comprehensive and systematic treatment of the subject for professionals and students in the fields of public and private administration it carefully examines the diverse interdisciplinary literature on the subject and identifies and develops the most promising approaches towards a unified theory caiden shows how the study of administrative reform can contribute substantially to the development of administrative theory and constructs a working definition of the phenomenon of administrative reform distinguishing it from social change and from administrative change the practical use of this definition is tested by the analysis of various case histories of administrative cultures of different periods in history from which a common cycle of reform processes is discerned the author follows with a detailed examination of the processes themselves the book concludes with a discussion of the obstacles to reform and a review of the author s findings and conclusions

Logics of Legitimacy 2017-09-25

Educational Management 2009-11-13

the politics administration dichotomy is much mentioned and often criticized in the public administration literature the politics administration dichotomy toward a constitutional perspective second edition offers a book length treatment of this classical notion while public administration academics typically reject it as an outdated and even dangerous idea it re emerges implicitly in their analyses this book tells the story of how this has happened and suggests a way to get out of the quandary it analyzes the dichotomy position in terms of content purpose and relevance what s in the second edition extensive study of the politics administration dichotomy as a classic idea in public administration a much overlooked constitutionalist line of argument in defense of this widely discredited notion exploration and further development of the intellectual legacy of dwight waldo coverage of the dichotomy s conceptual origins in 18th and 19th century continental european thought an assessment of main criticisms against and alternatives for the dichotomy presented in the literature contributions to the newly emerging constitutional school in the study of public administration an

argument against the institutional separation of political science and public administration in academia completely revised and updated the book examines the idea that politics and public administration should be separated in our theories and practices of government a combination of history of ideas and theoretical analysis it reconstructs the dichotomy s conceptual origins and classical understandings and gives an assessment of the main criticisms raised against it and the chief alternatives suggested for it arguing that one sided interpretations have led to the dichotomy s widespread but wrongful dismissal the study shows how it can be recovered as a meaningful idea when understood as a constitutional principle this study helps readers make sense of highly confused debates and challenge the issues with an original and provocative stance

Administrative Leadership 1981

although social scientists generally do not discuss evil in an academic setting there is no denying that it has existed in public administration throughout human history hundreds of millions of human beings have died as a direct or indirect consequence of state sponsored violence the authors argue that administrative evil or destructiveness is part of the identity of all modern public administration as it is part of psychoanalytic study at the individual level it goes beyond a superficial critique of public administration and lays the groundwork for a more effective and humane profession
