Mosaics in the Medieval World

2017-10-05

in this book liz james offers a comprehensive history of wall mosaics produced in the european and islamic middle ages taking into account a wide range of issues including style and iconography technique and material and function and patronage she examines mosaics within their historical context she asks why the mosaic was such a popular medium and considers how mosaics work as historical documents that tell us about attitudes and beliefs in the medieval world the book is divided into two part part i explores the technical aspects of mosaics including glass production labour and materials and costs in part ii james provides a chronological history of mosaics charting the low and high points of mosaic art up until its abrupt end in the late middle ages written in a clear and engaging style her book will serve as an essential resource for scholars and students of medieval mosaics

The Passion in Art

2019-07-23

jesus was not depicted on the cross until the early fifth century since then this scene has been painted or carved in sharply differing ways with the aid of over thirty full page plates the passion in art explores the historical contexts and theologies that led to such differing depictions because the first christians saw the crucifixion and resurrection of jesus as different aspects of a unified victory over sin and death scenes of the passion are juxtaposed with some of the resurrection which again are highly varied in what they do and do not show this is the first book to consider the passion as portrayed in the whole sweep of christian history each picture is considered both from the point of view of its context and its theological standpoint spanning the centuries the images reproduced and discussed include scenes from the passion of christ in the catacombs of domitilla mosaics in ravenna the rabbula crucifixion and resurrection the crucifixion plaque from metz the gero crucifix cimabue s crucifix giotto s noli me tangere piero della francesca s resurrection the isenheim altarpiece caravaggio s supper at emmaus rembrandt s christ on the cross chagall s white crucifixion contemporary paintings by stanley spencer graham sutherland nicholas mynheer and many more works of great acclaim

Church Building in Cyprus (Fourth to Seventh Centuries)

2018

hadrianopolis is located on the principal western route from the central anatolian plain through the mountains to bartin and the black sea 3 km west of modern eskipazar near karabèuk in roman southwestern paphlagonia though small it dominated a rich agricultural and vinicultural enclave on the borders between paphlagonia bithynia and galatia between 2005 and 2008 four survey excavation and restoration campaigns were conducted on the site by dokuz eylèul university the 2005 surveys identified the remains of at least 24 buildings many of which were paved with extensive mosaic floors following the publication of the inscriptions hadrianopolis i glass hadrianopolis ii and pottery finds hadrianopolis iii the present volume is devoted to these early byzantine mosaics and frescoes from this site dated mainly to the 6th and 7th centuries ad the most remarkable of these is the floor mosaic of the nave of the basilica b which displays personifications of the four

rivers of paradise euphrates tigris phison and geon

A History of the Roman People

2010

this book investigates sets of images consisting of many overlapping views of a scene and how the information contained within them may be combined to produce single images of superior quality the generic name for such techniques is frame fusion using frame fusion it is possible to extend the field of view beyond that of any single image to reduce noise to restore high frequency content and even to increase spatial resolution and dynamic range the aim in this book is to develop efficient robust and automated frame fusion algorithms which may be applied to real image sequences an essential step required to enable frame fusion is image registration computing the point to point mapping between images in their overlapping region this sub problem is considered in detail and a robust and efficient solution is proposed and its accuracy evaluated two forms of frame fusion are then considered image mosaicing and super resolution image mosaicing is the alignment of multiple images into a large composition which represents part of a 3d scene super resolution is a more sophisticated technique which aims to restore poor quality video sequences by modelling and removing the degradations inherent in the imaging process such as noise blur and spatial sampling a key element in this book is the assumption of a completely uncalibrated camera no prior knowledge of the camera parameters its motion optics or photometric characteristics is assumed the power of the methods is illustrated with many real image sequence examples

Hadrianopolis IV

2019

in recent years funding for the conservation of cultural heritage has become increasingly difficult to obtain and this trend shows no sign of changing significantly in the foreseeable future the twelfth triennial meeting of the international committee for the conservation of mosaics held in sardinia in october 2014 focused on the theme of cost broadly considered relating specifically to the preservation and presentation of the world's mosaic heritage this handsome abundantly illustrated volume provides a comprehensive record of the conference the volume's sixty seven papers and posters comprising contributions from more than one hundred leading experts in the field reflect the conference's principal themes cost methods of survey and documentation conservation and management education and training backing materials and techniques presentation and display and case studies papers are presented either in english french or italian there are abstracts in english and either french or italian for all entries the volume will be of interest to conservators site managers and others responsible for conserving the mosaic heritage especially in these challenging times

A Handbook for Travellers in Central Italy ... Seventh edition [of the work originally written by Octavian Blewitt], completely revised, etc

1867

this book copiously illustrated throughout studies the garments and their accessories worn by some 245 figures represented on approximately 41 mosaic floors some only partially preserved that once decorated both public and private structures within the historical geographical area of eretz israel in late antiquity

Mosaics of Ravenna

2017-07-27

few cities around the world transcend their physical boundaries the way jerusalem does as the spiritual capital of monotheism jerusalem has ancient roots and legacies that have imposed themselves on its inhabitants throughout the centuries in modern times and aside from all the religious complexities jerusalem has become enmeshed in the palestinian and israeli national identities and political aspirations which have involved and dragged into the fray other actors from around the world consisting of 35 chapters from leading specialists the routledge handbook on jerusalem provides a broad spectrum of studies related to the city and its history beginning with a historical overview starting from the end of the bronze age the chapters go on to look at a range of topics including religious symbolism and pilgrimage religious and social relations social and economic history architecture and archaeology maps eschatology politics by bringing together contributions from

leading scholars of different disciplines this handbook provides a comprehensive overview of the various layers that make up this unique and special city it will appeal to students and scholars of middle east studies religion and cultural history and anyone with an interest in learning more about jerusalem

The Conservation and Presentation of Mosaics: At What Cost?

2017-09-01

antiquarian interest in the roman period mosaics of britain began in the 16th century this book is the first to explore responses and attitudes to mosaics not just at the point of discovery but during their subsequent history it is a field which has received scant attention and provides a compelling insight into the agency of these remains

Weaving in Stones: Garments and Their Accessories in the Mosaic Art of Eretz Israel in Late Antiquity

2020-02-07

women remain woefully underrepresented in science technology engineering and math stem negative stereotypes about women in these fields are pervasive rooted in the debunked claim that women have less aptitude than men in science and math while some tv series present portrayals that challenge this generalization others reinforce troubling biases sometimes even as writers and producers attempt to champion women in stem this collection of new essays examines numerous popular series from children s programs to primetime shows and discusses the ways in which these narratives inform cultural ideas about women in stem

Routledge Handbook on Jerusalem

2018-10-26

presented through 20 case studies covering europe and the near east neighbours and successors of rome investigates development in the production of glass and the mechanisms of the wider glass economy as part of a wider material culture in europe and the near east around the later first millennium ad though highlighting and solidifying chronology patterns of distribution and typology the primary aims of the collection are to present a new methodology that emphasises regional workshops scientific data and the wider trade culture this methodology embraces a shift in conceptual approach to the study of glass by explaining typological change through the existence of a thriving supra national commercial network that responded to market demands and combines the results of a range of new scientific techniques into a framework that stresses co dependence and similarities between the various sites considered such an approach particularly within byzantine and early islamic glass production is a pioneering concept that contextualises individual sites within the wider region by twinning a critique of archaeometric methods with the latest archaeological research the contributors present a foundation for glass research seen through the lens of consumption demands and geographical necessity that analyses production centres and traditional typological knowledge in so doing they bridge an important divide by demonstrating the co habitability of diverse approaches and disciplines linking for example the production of campanulate bowls from gallaecia with the burgeoning international late antique style equally the particular details of those pieces allow us to identify a regional style as well as local production as such this compilation provides a highly valuable resource for archaeologists anthropologists and art historians
